

Vital Access

vital

More follow-ups, better adherence to plan

Transforms lengthy discharge paperwork into an easy-to-follow checklist for a radically better post-discharge experience.

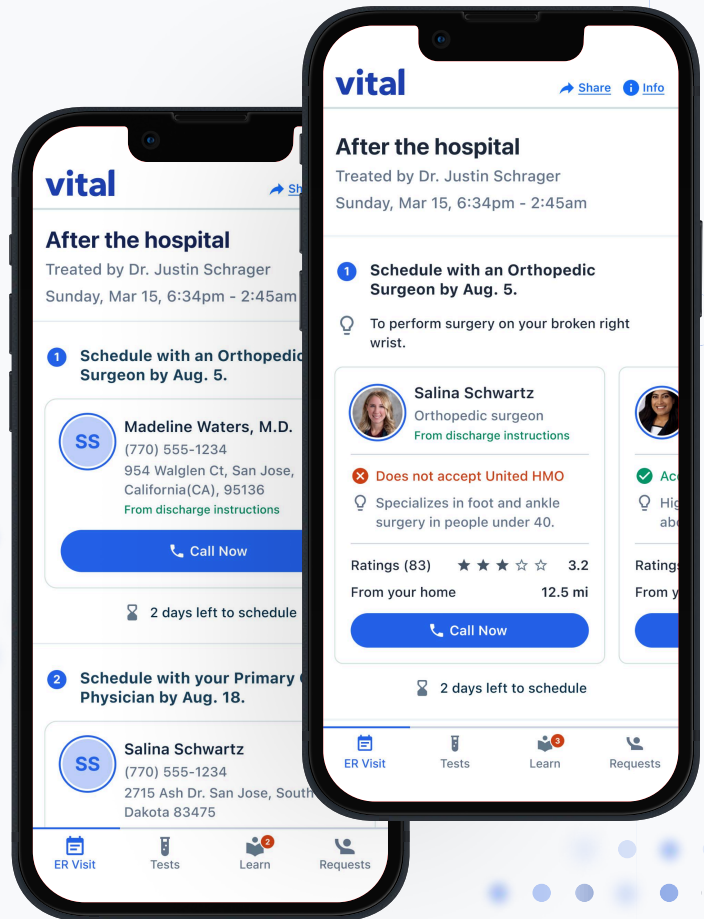

ABOUT VITAL ACCESS

By using data from your EHR at the time of discharge, Vital Access automatically suggests the most relevant place for each patient to seek follow-up care and fill medications.

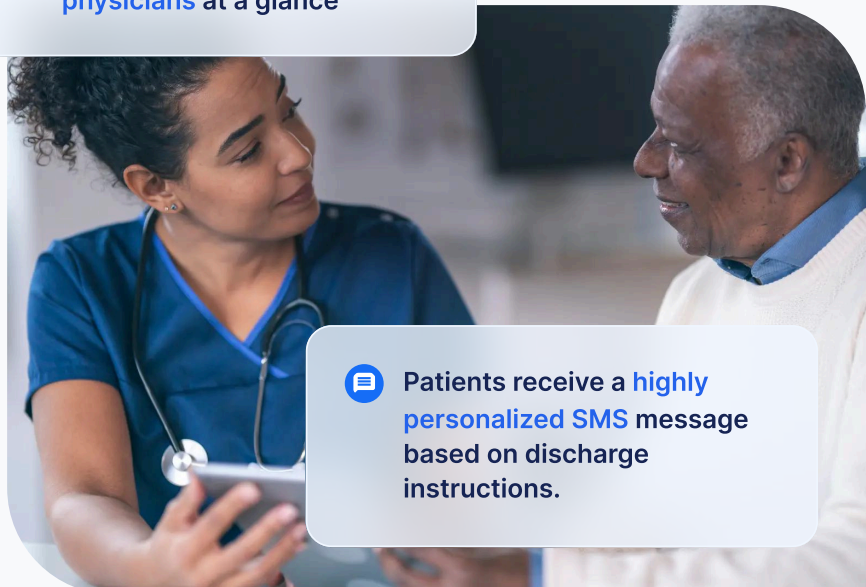

The result is 30-40% higher follow-up appointments for your health system, typically worth >\$1M per facility. Additional benefits include a 7% lower 30-day readmissions, and a 21% lower ER bounce-back.

STREAMLINED CARE PATHS

- 🔍 Automatically finds in-network providers based on patient needs and schedule openings
- ✓ Can be configured to show only owned, employed, joint-venture, or affiliated providers
- 📋 Arranges choices by best match based on each patient's needs & language
- 📈 Helps improve outcomes with appropriate follow-up care
- ♥️ Reduces leakage and creates patient loyalty
- 📺 Drives revenue for your health system
- 📅 Simplifies the scheduling process for patients while reducing call center burden

👁️ Patients see **best-match physicians** at a glance

💬 Patients receive a **highly personalized SMS** message based on discharge instructions.
