

Vital Inpatient

vital

Family informed, patients empowered, nurses relieved

Keeps patients & families informed with a live view of care.

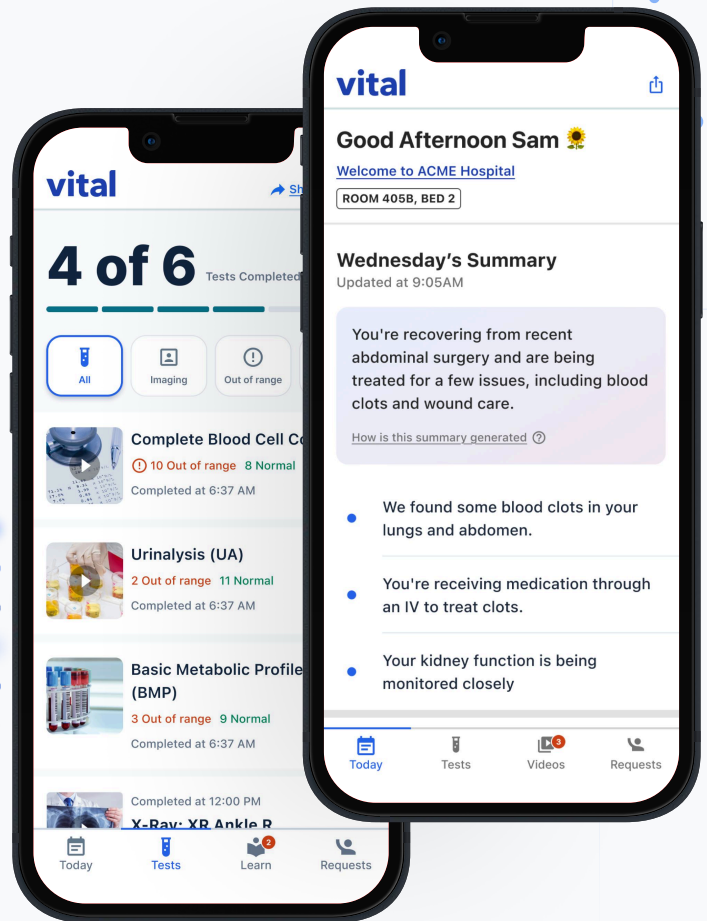

Routes lower-priority requests to other departments to save nurses time.

ABOUT VITAL INPATIENT

Vital transforms EHR data into a patient & family friendly view of their inpatient care. AI explains results & notes in plain language, assigns education & keeps the whiteboard up-to-date.

SMARTER PATIENT CARE

- ✓ A digital whiteboard that automatically writes & updates itself using AI.
- ✓ Automatically communicates clinical status updates, a personalized care plan, dietary restrictions and goals.
- ✓ Easy, secure family sharing.
- ✓ No download required ⇒ super high utilization of 50%+ of all patients.
- ✓ 2,000+ nurse hours saved by routing food orders, environmental services, patient experience and other lower-urgency requests to other departments.
- ✓ Discharge transformed into a 1-2-3 step checklist for higher adherence on medications & follow-ups.
